

## ISO 9001:2015 certification of ASB Greenworld fertilizer plant

The ASB Greenworld fertilizer plant in Wietzendorf near Soltau, Germany has successfully achieved the ISO 9001:2015 certification.

The introduction of this quality management system is an important step to further develop the constant quality of liquid fertilizer and fertilizer sticks and document the production processes.

In parallel, a computer-controlled mixing system was also installed. This ensures the production of fertilizers at consistently high quality levels for our customers.

### CERTIFICATE OF APPROVAL

This document is intended for the personal use of the individual user and is not to be disseminated broadly.

## ASB Greenworld promotes gardening in schools and kindergartens

For ASB Greenworld, community involvement is a fundamental and integral part of the corporate culture. For many years already, ASB Greenworld has been supporting charities such as fire departments, sports clubs, kindergartens, and schools near its production sites.

As a family-owned manufacturer of garden products, natural gardening and promoting the young generation has special importance for ASB Greenworld and thus its commitment in this area is particularly strong.

A new initiative is the long-term collaboration with **"GemüseAckerdemie"** amongst other things through ASB's donation of organic vegetable soils and organic vegetable fertilizers for the projects' needs. The **"GemüseAckerdemie"**, a German play on words "vegetable plot academy" is an education program by the non-profit association "Ackerdemie e.V.". It teaches basic agricultural knowledge and understanding of natural growth processes to school children through hands-on training in production and marketing of vegetables.

**ASB Greenworld** supports the dedicated members of **Ackerdemie e.V.** in spreading this initiative Germany-wide to give children access to natural food production and thus to increase their appreciation for food and healthy eating.

The **"GemüseAckerdemie"** has already won numerous awards: Federal winner of "start social" 2014 awarded by Chancellor Angela Merkel, Excellent place 2014/2015: Germany - Land of Ideas contest and "In Form" Germany's initiative for healthy eating and exercise by the German Federal Ministry of Food and Agriculture and Federal Ministry of Health (Source: Press release Ackerdemie e.V., [www.gemueseackerdemie.de](http://www.gemueseackerdemie.de))
